4 I	DAVI	D KOENIG	11 Case No.: 23CV15424
5		Plaintiff	12 PLAINTIFF'S DECLARATION OF
6		vs	13 ESTIMATED SCRABBLE PRIZE
7 l	EVAN	NS CLINCHY	14 WINNINGS
8 J	IENN	IIFER CLINCHY and	15
9]	BRIA	NNA (LOLA) McKISSEN	16
10		Defendants	17
18			
19		DI	ECLARATION
20 I	, Dav	id Koenig, declare the following un	der penalty of perjury:
21	1.	This declaration sets forth facts as	would be admissible in evidence, and I am competent
22		to testify to the matters stated.	
23	2.	I have competed in Scrabble tourn	aments since November 9th, 2002 and I have won cash
24		prizes in many of these events.	
25	3.	The vast majority of these events h	nave been sanctioned by the National Scrabble
26		Association (NSA) in the USA and	d Canada through June 2009, by the North American
27		Scrabble Players Association (NA	SPA) in the USA and Canada from July 2009 onward,
28		by the Association of British Scrab	oble Players (ABSP) in the UK and Europe.
29	4.	Additionally, many of these tourna	aments have been sanctioned by the World
30		English-language Scrabble Players	s Association (WESPA), and I have played in a small

- number of tournaments which were sanctioned only by WESPA and not by one of the
- 2 other associations.
- 5. I have won prize money in United States Dollars, Canadian Dollars, British Pounds,
- 4 Euros, and Malaysian Ringgit.
- 6. All Canadian prize winnings are estimates in American Dollars, as I do not have exact
- 6 data for those tournaments.
- 7. I have made a good faith effort to collect all data that I could on past prize winnings, but
- 8 the data sources are incomplete.
- 8. I have made a good faith effort to estimate all unknown prizes as accurately as possible.
- 9. My data for NSA and NASPA tournaments comes from cross-tables.com. The **Prize**
- column in the first chart corresponds to the data at
- https://www.cross-tables.com/results.php?playerid=60, except as noted in the next item.
- 10. I have added to the **Prize** column two prizes, because I have corroborated exact values
- for those prizes. They are for the 06/07/14 tournament in Pittsburgh and the 12/08/17
- California Open.
- 11. Where cross-tables has provided estimates, I have used their estimates.
- 12. The rows highlighted in yellow are tournaments in which I likely won money but for
- which cross-tables has no data.
- 13. I have estimated my likely winnings at the tournaments in yellow, using several heuristics
- as a guide:
- a. Comparison to other tournaments with roughly the same size of field and a similar
- result.

- b. Multiday tournaments (more than 8 rounds) tend to pay higher than one-day
 tournaments (8 rounds or fewer).
- c. Anecdotal knowledge of particular directors and geographic areas that tend to pay
 higher or lower prizes.
- d. Knowledge of specific events that is not from official data sources is noted.
- 14. The second chart shows all of my winnings from ABSP tournaments. Stewart Houtens of
 ABSP provided me the full list of ABSP tournaments that I played.
- 15. The vast majority of the ABSP prize winnings are corroborated by ABSP data or by myown social media posts, as shown in the notes.
- 16. The third chart shows the only tournaments that I am aware of which were sanctioned by
 WESPA but not by NSA, NASPA, or ABSP in which I won prizes.
- 17. The links in the third chart show corroboration of those finishes, but I have not found any extant data corroborating the prize amounts.
- 18. For ABSP and WESPA tournaments where I do not have data, I have estimated frommemory.
- 19. The fourth chart combines the totals of the previous three charts to estimate my total prize winnings in American dollars.
- 20. I have not accounted for the changing relative value of the currencies and have just used a fixed estimate of \$1.30 to a Pound, \$1.10 to a Euro, and \$0.22 to a Ringgit.
- 20 21. The value in US Dollars of the total estimated prize winnings I have calculated is \$21,602.

- 22. Although the estimate for an individual tournament might be slightly higher or lower than what I actually won, I believe this total number is a good ballpark estimate for how much
- money I have won in place or class prizes at these tournaments.
- 23. I also believe that this number underestimates my total winnings from Scrabble tournaments for two reasons:
- a. I sometimes won high game or high word prizes for individual games or plays that are not always accounted for in this data.
- b. I played in a few unsanctioned house tournaments and may have won money in
 some of those. Since I do not have data about these nor good memory of the
 specifics, I have omitted them from consideration in these calculations.
- 24. These prize winnings encompass a roughly 20 year period, from late 2002 to early 2022.
- 25. Combining the conclusions of items 21 and 24, I have won on average a little more than \$1000 per year over the course of my entire tournament Scrabble career.
- 26. Inspection of the chart of NASPA events shows that my winnings are heavily biased
 toward the more recent years. I have more consistently won prizes, and many of the
 prizes that I have won have been bigger in the later part of the chart.
- 27. Note, for example, that I won money in every single tournament between November 2017 and October 2019.
- 28. Almost all of the international prize winnings in the ABSP and WESPA charts are from 2016 and later.
- 29. Based on the factors in items 26-28, I think it is a reasonable estimate that my expected prize winnings in recent years would have been in the range of \$1500-\$2000 per year, if the defendants had not interfered with my ability to compete in Scrabble tournaments.

30. This \$1500-\$2000 per year estimate is consistent with the statement I made in item 7 of my affidavit on May 22, 2023.

August 11, 2023.

/s/ David Koenig
